TO: File

FROM: Kent Wheeler, Reclamation Hydrologist *KW*

RE: Stipulation Response to UMC 817.45 -(1-2) RPS/DC, Genwal
Coal Company, Crandall Canyon Mine, ACT/015/032, Emery
County, Utah

SUMMARY:

The above-referenced document was reviewed and the energy dissipator was found to be adequate. Furthermore, the commitment to change the angle at which channel RD-4 meets channel RD-5 makes the confluence acceptable.
